VF monthly follow-up

May 2025

Summary

Travel to Finland and to the Nordics compared to previous year and pre-pandemic

- From January to May 2025, the **number of visitors** to Finland **increased by 3%** in comparison to the same period last year. **Leisure travel saw an increase of 8%**, whereas **business travel** experienced a **6% decline**. As a result, **leisure visitors' spending** was **9% higher** than the previous year, while **business travellers' expenditures dropped by 20%**.

- Regarding **registered foreign overnight stays**, there was an **increase of 13%** compared to the prior year, and this figure was also *1% above the levels noted from January to May 2019*.

- The most recent data on **short-term rentals** indicates a **continued rise in usage throughout 2024** and into the **first quarter of 2025**. Depending on the originating market, the **proportion of short-term rentals** can range from **16% to over 40% of total paid overnight stays**, suggesting that statistics on registered overnight stays alone do not provide a complete picture anymore of the ranking of source markets and the development of paid overnight stays.

- The **Nordic region** (excl. Iceland) recorded **14.6 million registered foreign overnight stays** and a **9% increase** from January to May 2025 compared to the corresponding period last year. **Finland's market share among the four countries** was **18%**, so it remained on the same level as during Jan-May 2024.

- **Flight bookings for the summer peak season** (June-August) indicate **minor positive growth for Finland, Sweden, and Norway** in relation to the previous year. *However, only Norway has surpassed the flight booking levels of 2019.*

Border Survey

January-May 2025

- **Trips increased by 3%**, but **total spend remained at the same level** as in January-May 2024.
  - This growth was driven by a higher demand for leisure travel, particularly for **vacation and recreational trips to Lapland**.
  - There was a decline in business travel compared to the previous year.
- The largest number of visitors originated from **Estonia**, **Germany**, the **UK**, **France**, and **Sweden**.
- **Germany**, **France**, the **UK**, **Estonia**, and the **USA** were the main contributors to the total spend in Finland.

Overnights in short-term rentals

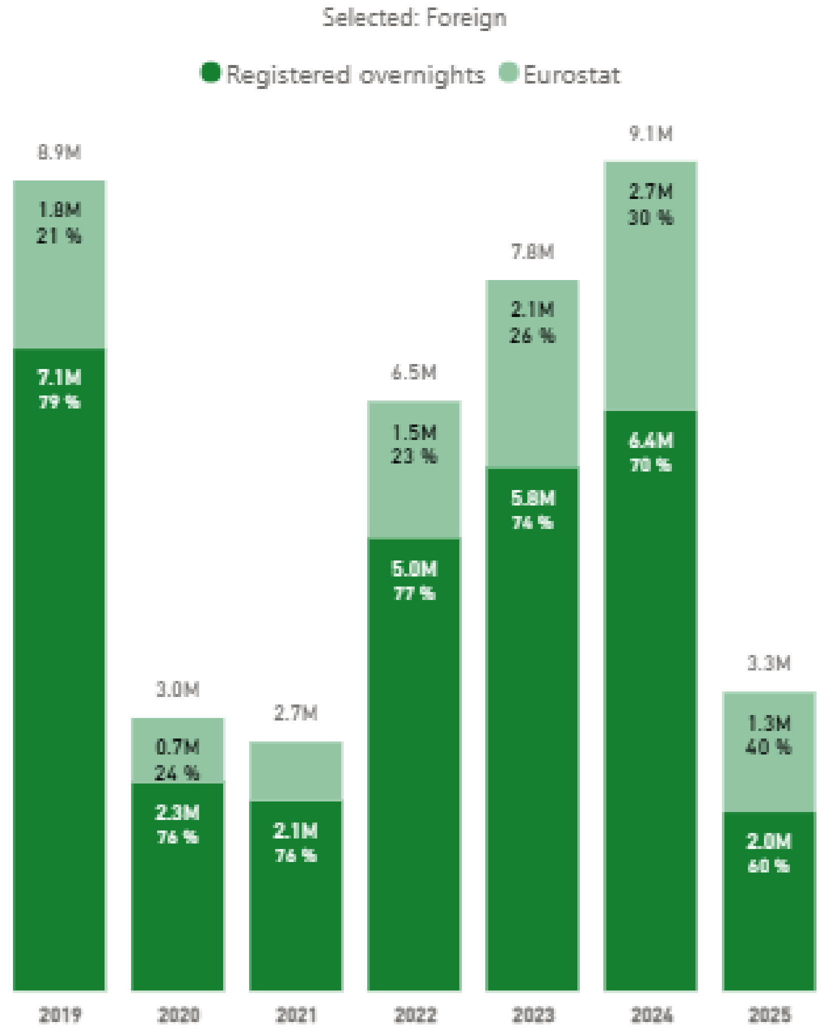
- The importance of **short-term rentals via international platforms** continues to grow.
- In **2024**, **foreign overnights** in short-term rentals added up to **2.7 million**, so the total number of **paid foreign overnights** was **9.1 million**, which was **17% more** than in 2023 *and **2% more** than in 2019*. So, when looking at the total paid foreign overnights instead of only registered overnights, **travel to Finland recovered already last year to the pre-pandemic level**.
- The share of foreign overnights in short-term rentals was **30% in 2024** and during **January-March 2025** it was as high as **40%**.
  - Number of foreign overnights in short-term rentals are following the same pattern than registered overnights – **biggest increases are in winter months**.
  - In 2024, the share of overnights in short-term rentals in **Rovaniemi** was nearly **half of** the total number of **paid foreign overnights**. **Year-on-year growth rate** in short-term rentals in Rovaniemi was as high as **69%**.

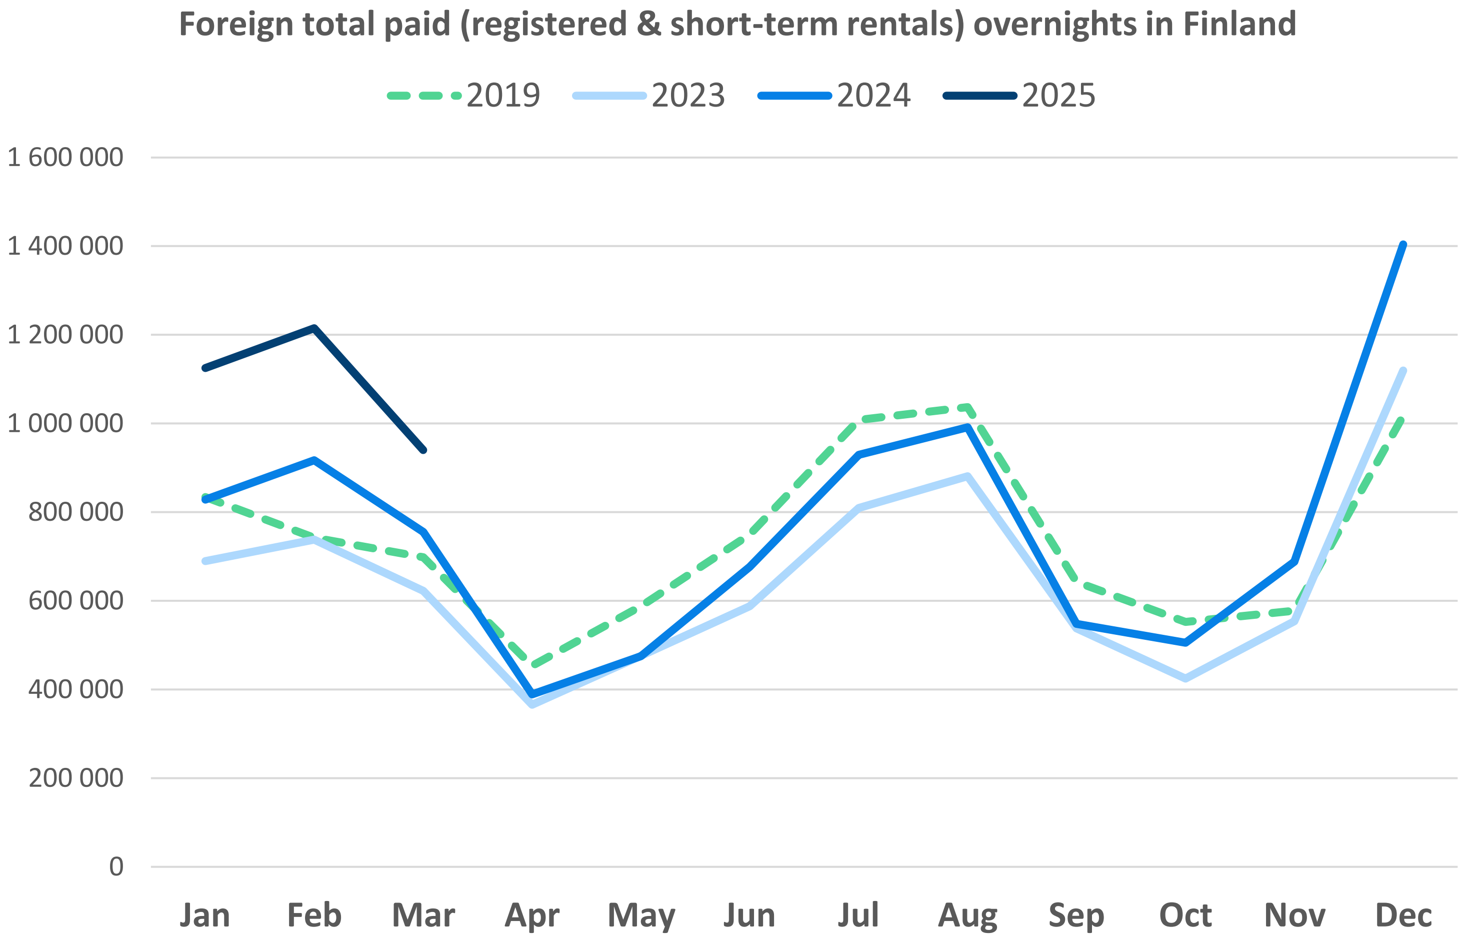
Monthly foreign total paid overnights in Finland

(Registered overnights + overnights in short-term rentals)

Source: Visit Finland Statistics Service Rudolf, Statistics Finland

The growing popularity of short-term rentals among foreign tourists highlights the noticeable recovery and strong growth of winter travel. While summer travel has also seen an uptick, it still fell short in 2024 of reaching the overnight levels seen before the pandemic.



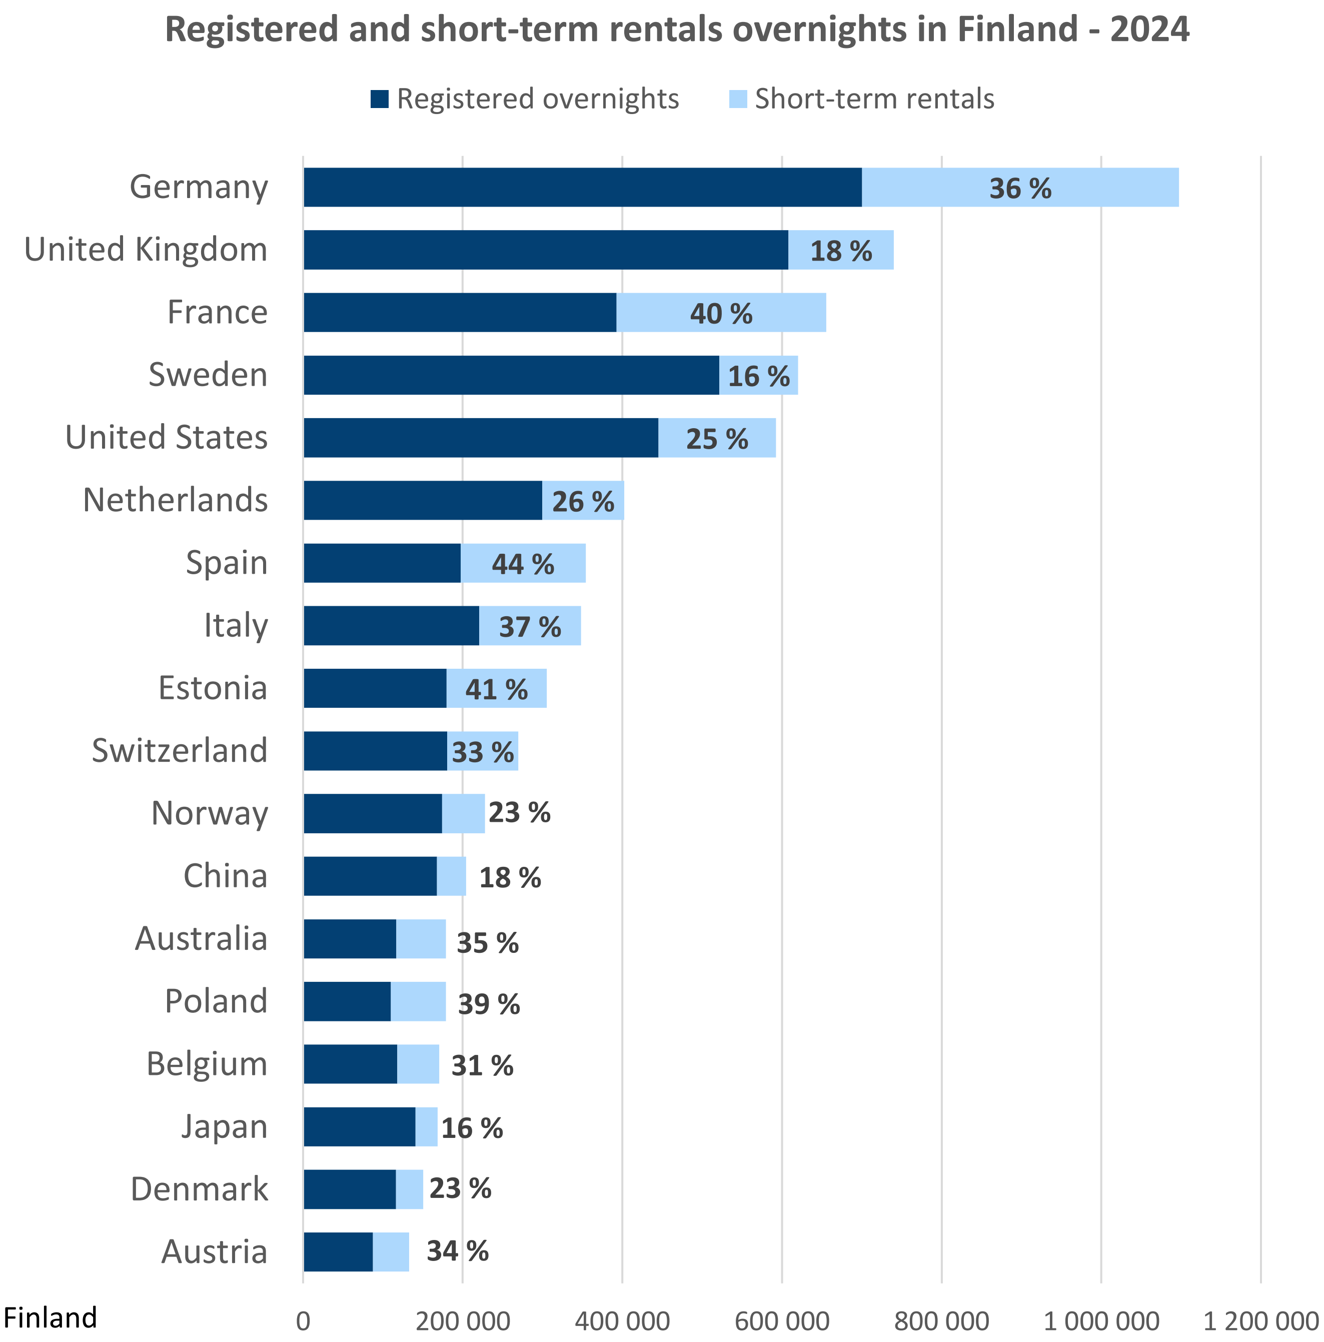


Registered and short-term rentals overnights in Finland Year 2024

In 2024, **Germany** was the dominant market for both registered and short-term rental overnights. Germany's share of short-term rentals has also significantly risen compared to prior years.

In addition to Germany, **Finland** saw overnights in short-term rentals of **30% or more** for visitors coming from **France**, **Spain**, **Italy**, **Estonia**, **Switzerland**, **Australia**, **Poland**, **Belgium**, and **Austria**.

When examining the total overnights (registered plus short-term rentals) in 2024 versus pre-pandemic levels in 2019, **the highest relative increases** among the main source markets were recorded for **Italy** (+52%), **the US** (+46%), **Belgium** (+45%), **France** (+42%), **Spain** (+41%), and **Austria** (+40%).



Visit Finland

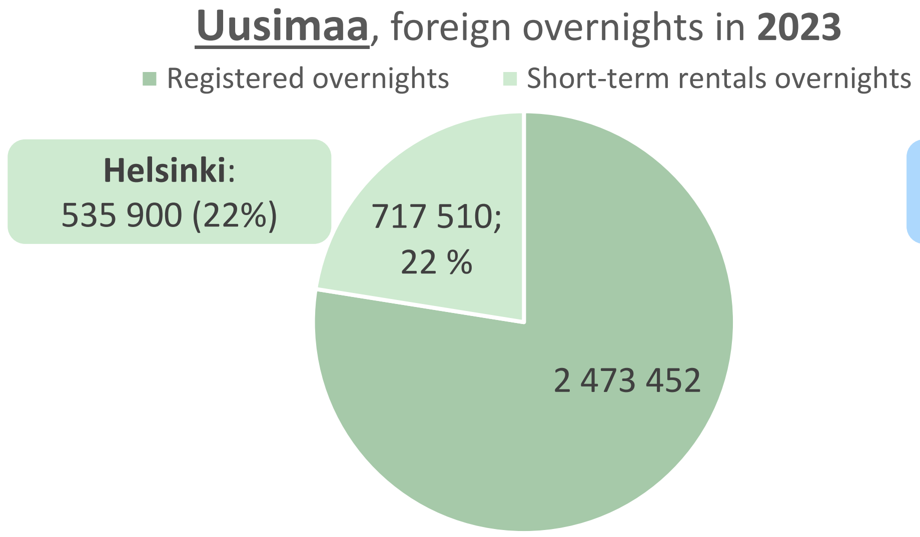
Source: Visit Finland Statistics Service Rudolf, Statistics Finland

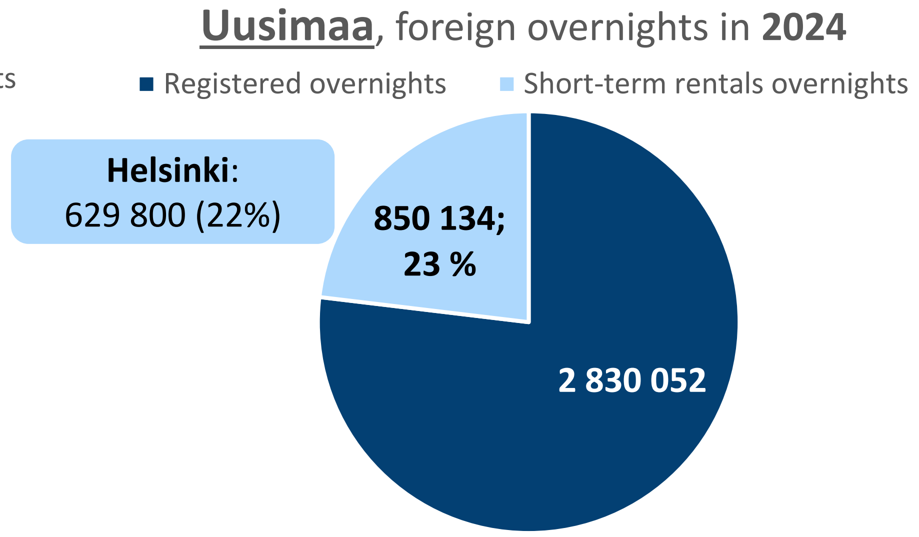
Registered and short-term rentals foreign overnights in Uusimaa & Lapland 2023-2024

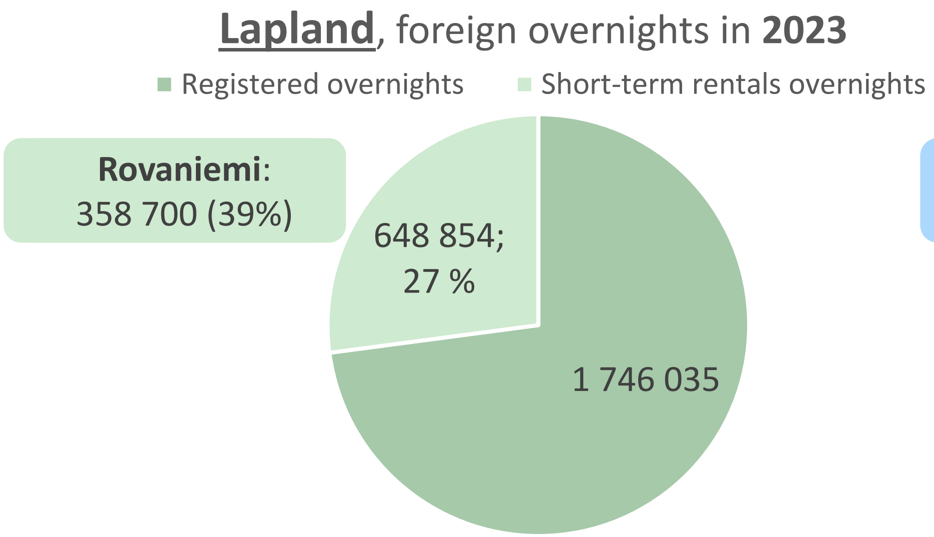
The popularity of short-term rentals has notably risen, particularly in **Lapland**, where the proportion of short-term rentals increased from 27% in 2023 to **35% in 2024**. In **Rovaniemi**, **almost half** of all paid foreign overnight stays occurred in **short-term rentals**.

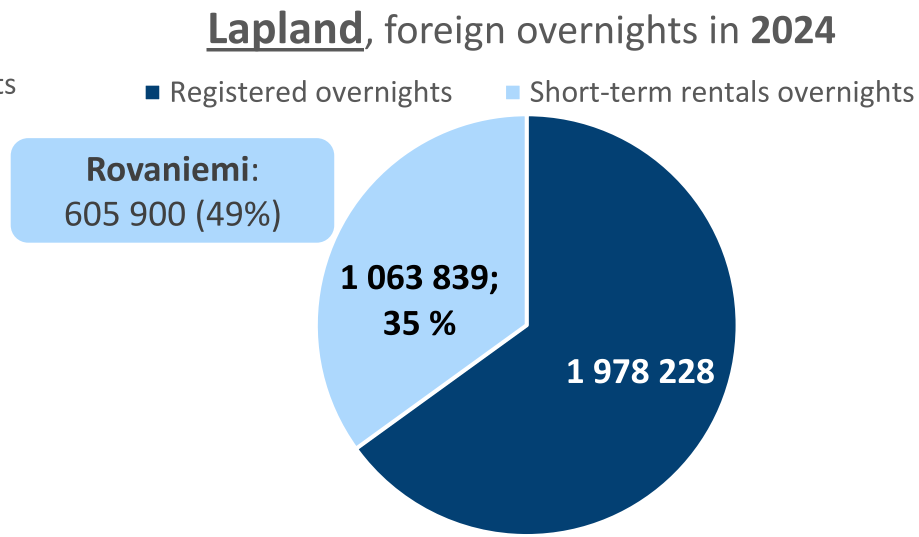
The **annual growth rate** for overnight stays in **short-term rentals** in **Lapland** reached **64%**, while in **Rovaniemi**, it soared to **69%**.

In **Lapland**, the **total number of paid foreign overnight stays** rose by **27%**, and in **Uusimaa**, there was a **15%** increase in 2024 compared to the previous year.



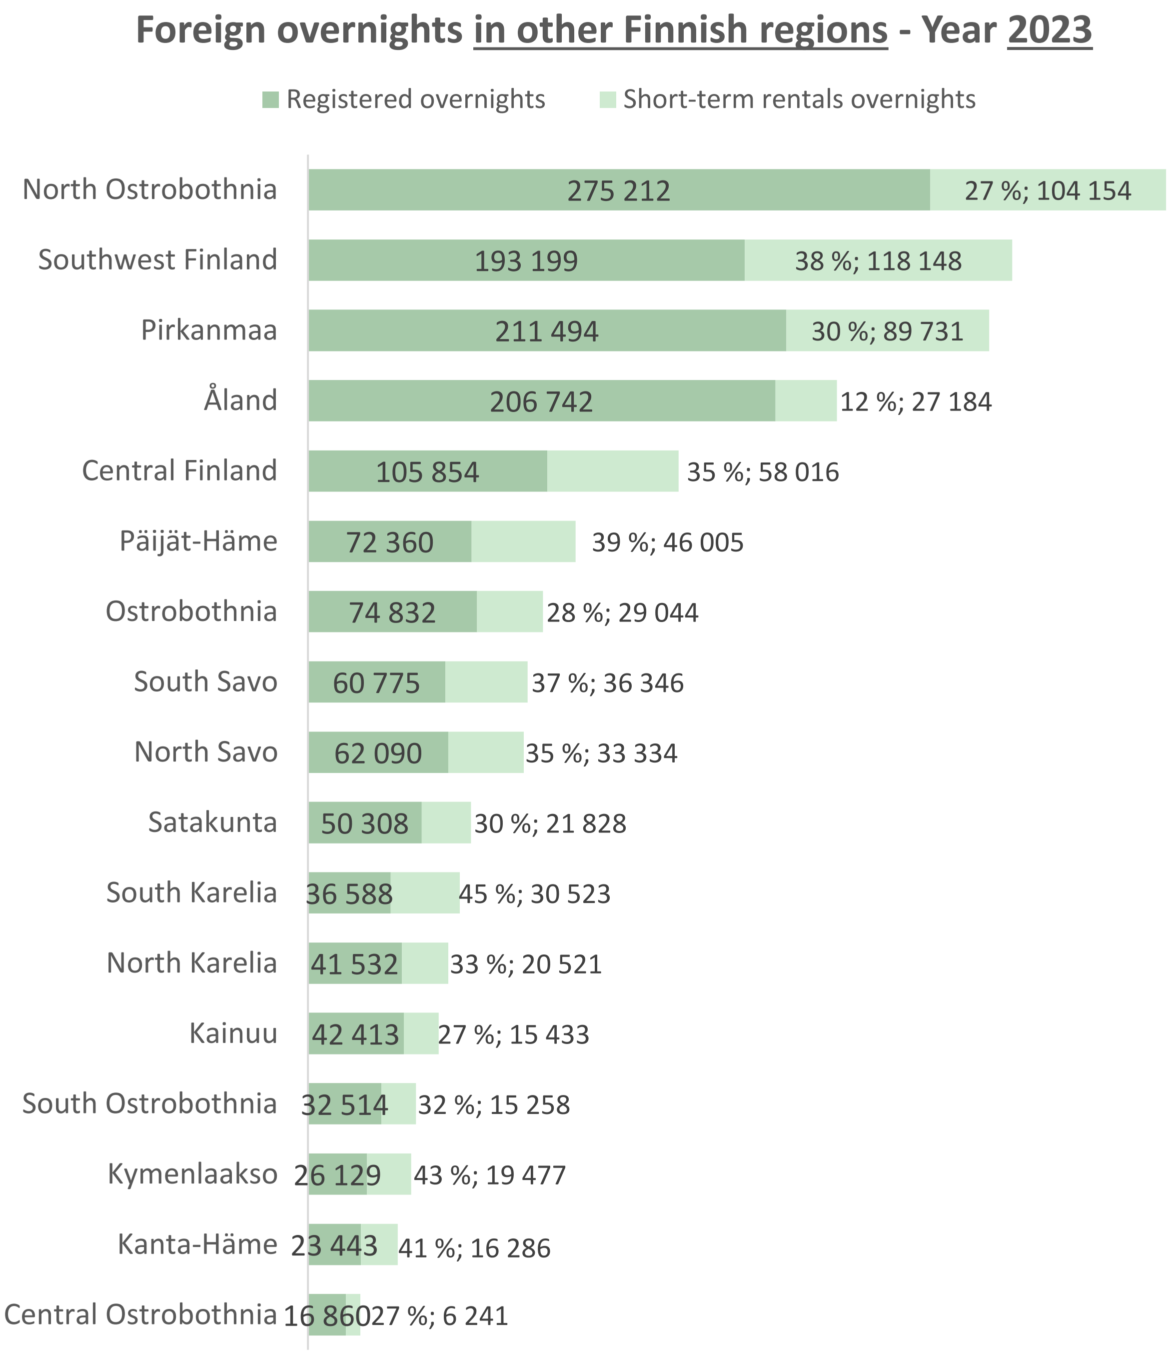


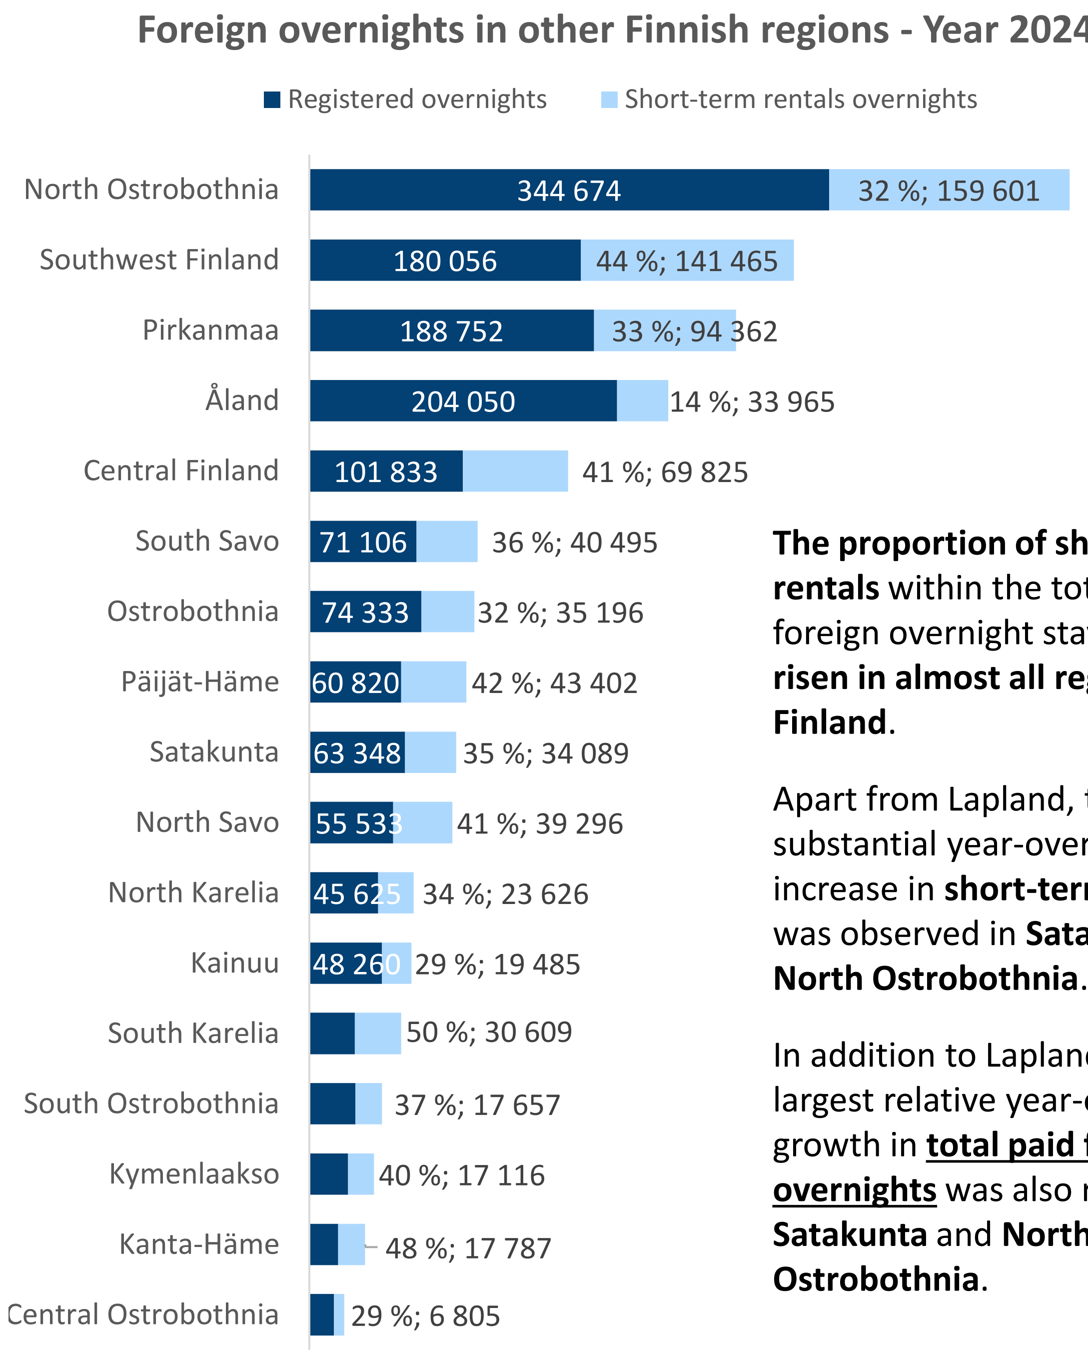




Visit Finland

Source: Visit Finland Statistics Service Rudolf, Statistics Finland

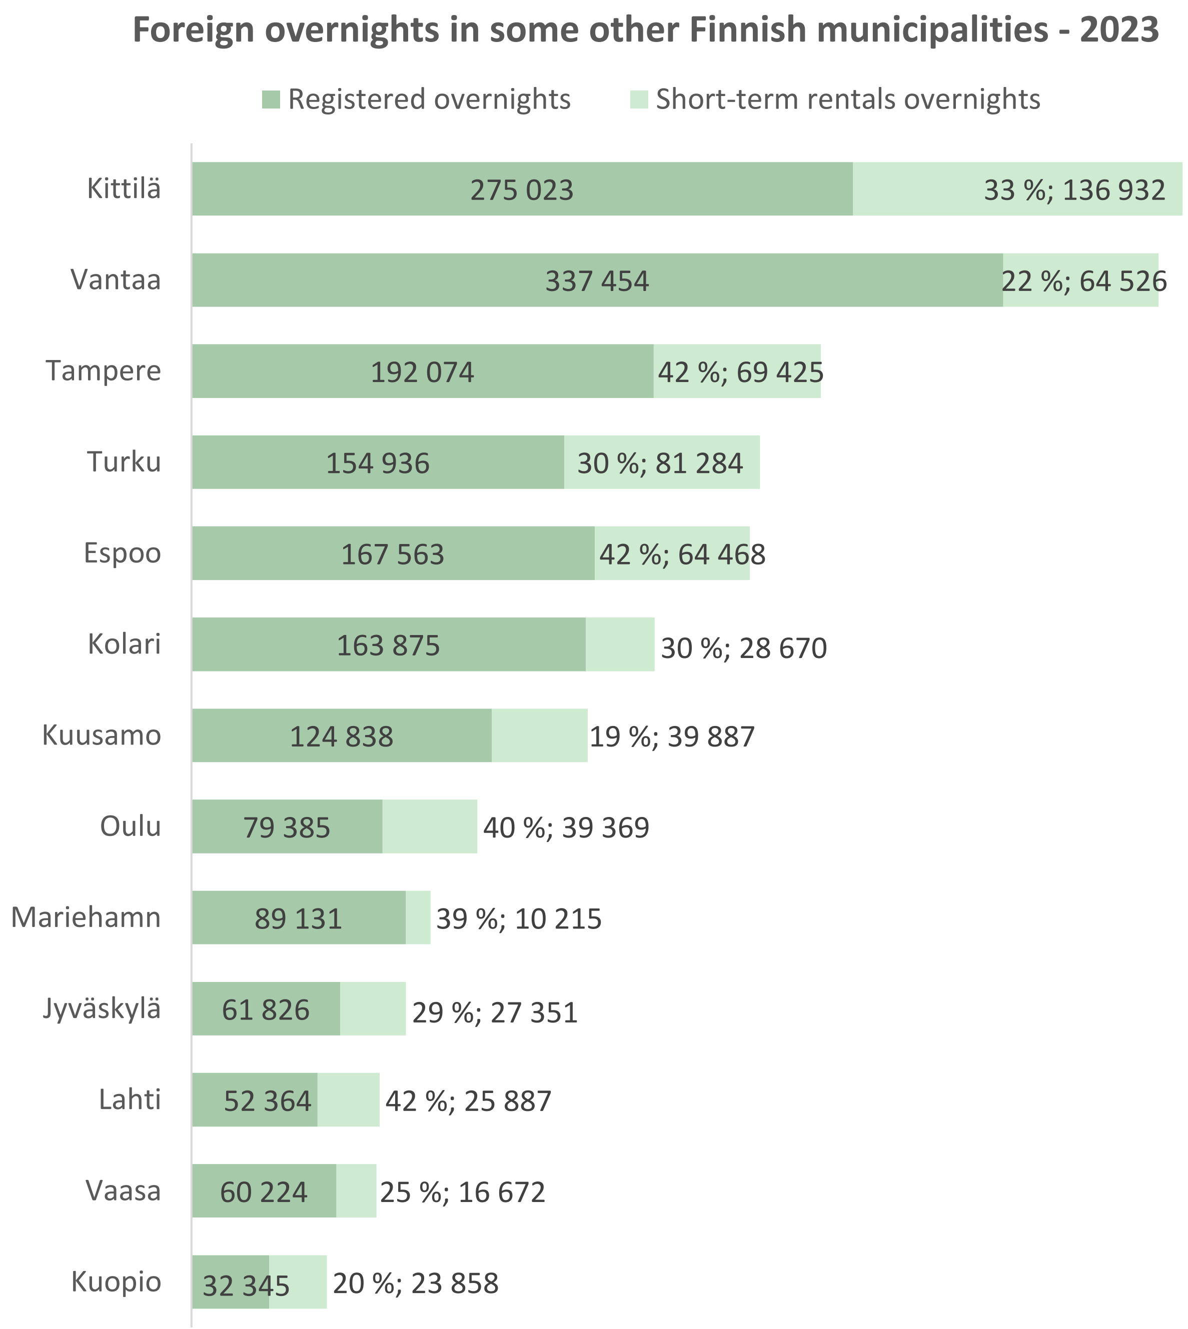


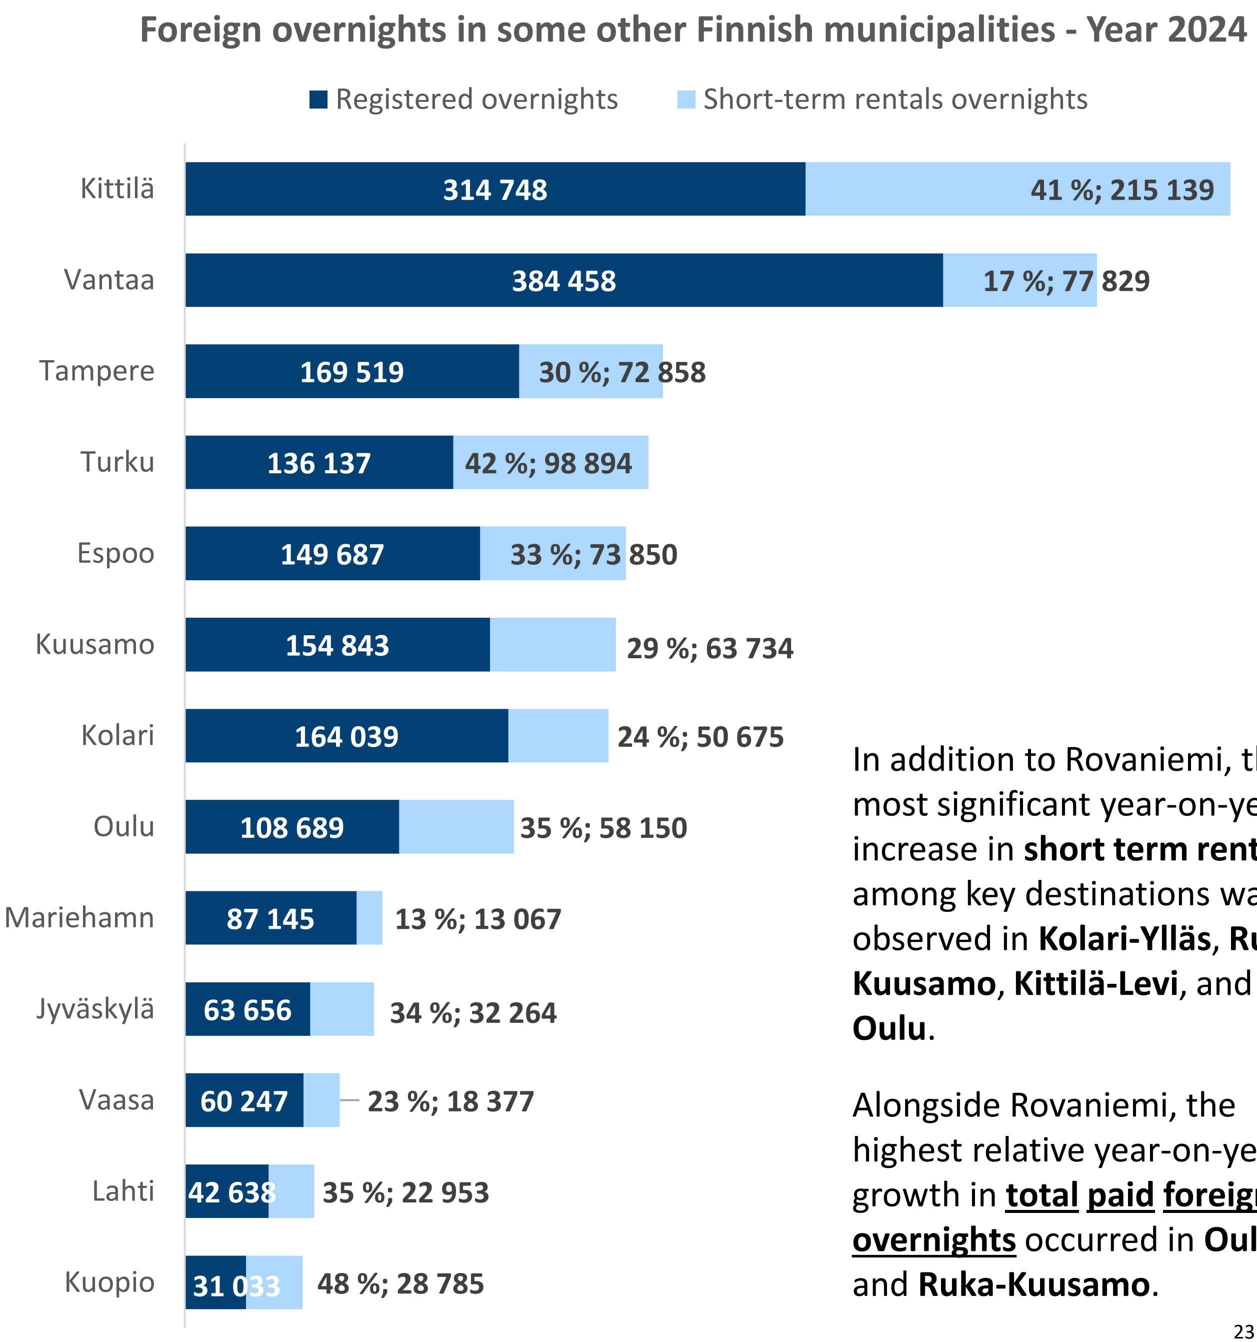


The proportion of short-term rentals within the total paid foreign overnight stays **has risen in almost all regions of Finland**.

Apart from Lapland, the most substantial year-over-year increase in **short-term rentals** was observed in **Satakunta** and **North Ostrobothnia**.

In addition to Lapland, the largest relative year-over-year growth in **total paid foreign overnights** was also recorded in **Satakunta** and **North Ostrobothnia**.





In addition to Rovaniemi, the most significant year-on-year increase in **short term rentals** among key destinations was observed in **Kolari-Ylläs**, **Ruka-Kuusamo**, **Kittilä-Levi**, and **Oulu**.

Alongside Rovaniemi, the highest relative year-on-year growth in **total paid foreign overnights** occurred in **Oulu** and **Ruka-Kuusamo**.

Registered overnights in the Nordics

- **<u>Jan-May 2025</u>**

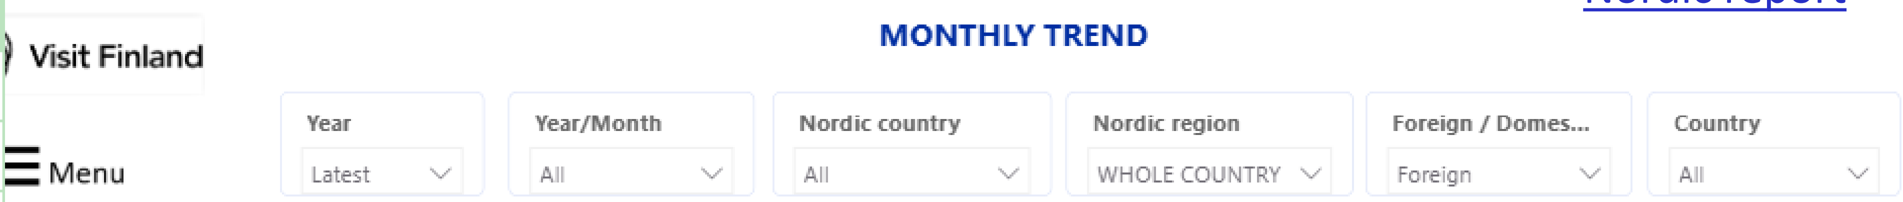
  - There were **14.6 million** registered foreign overnight stays in the Nordics excluding Iceland (where the accommodation statistics are undergoing revisions). Overnights **increased by 9%** compared to the same period last year.

  - **Finland's market share** among the four countries was **18**%, so it remained on the same level as during Jan-May 2024.

  - Relative growth during Jan-May 2025 was strongest to **Norway** (+18%) and **Finland** (+13%). Overnights in Denmark and in Sweden increased in both countries by 5%.

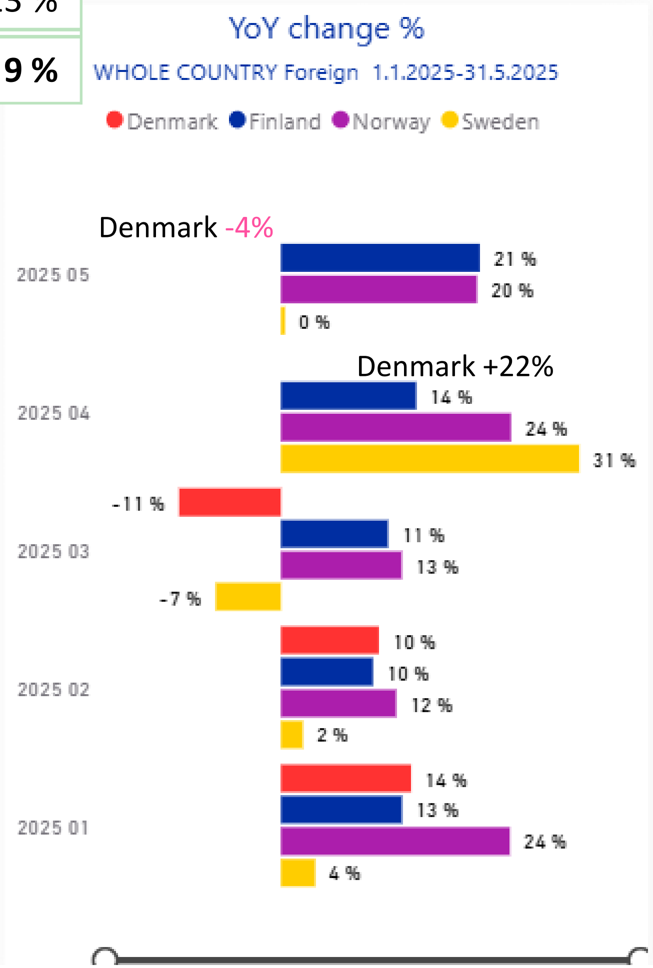
Overnights Jan-May 2025		YoY
Denmark	4.5M	5 %
Sweden	4.3M	5 %
Norway	3.1M	18 %
Finland	2.7M	13 %
Sum	**14.6M**	**9 %**

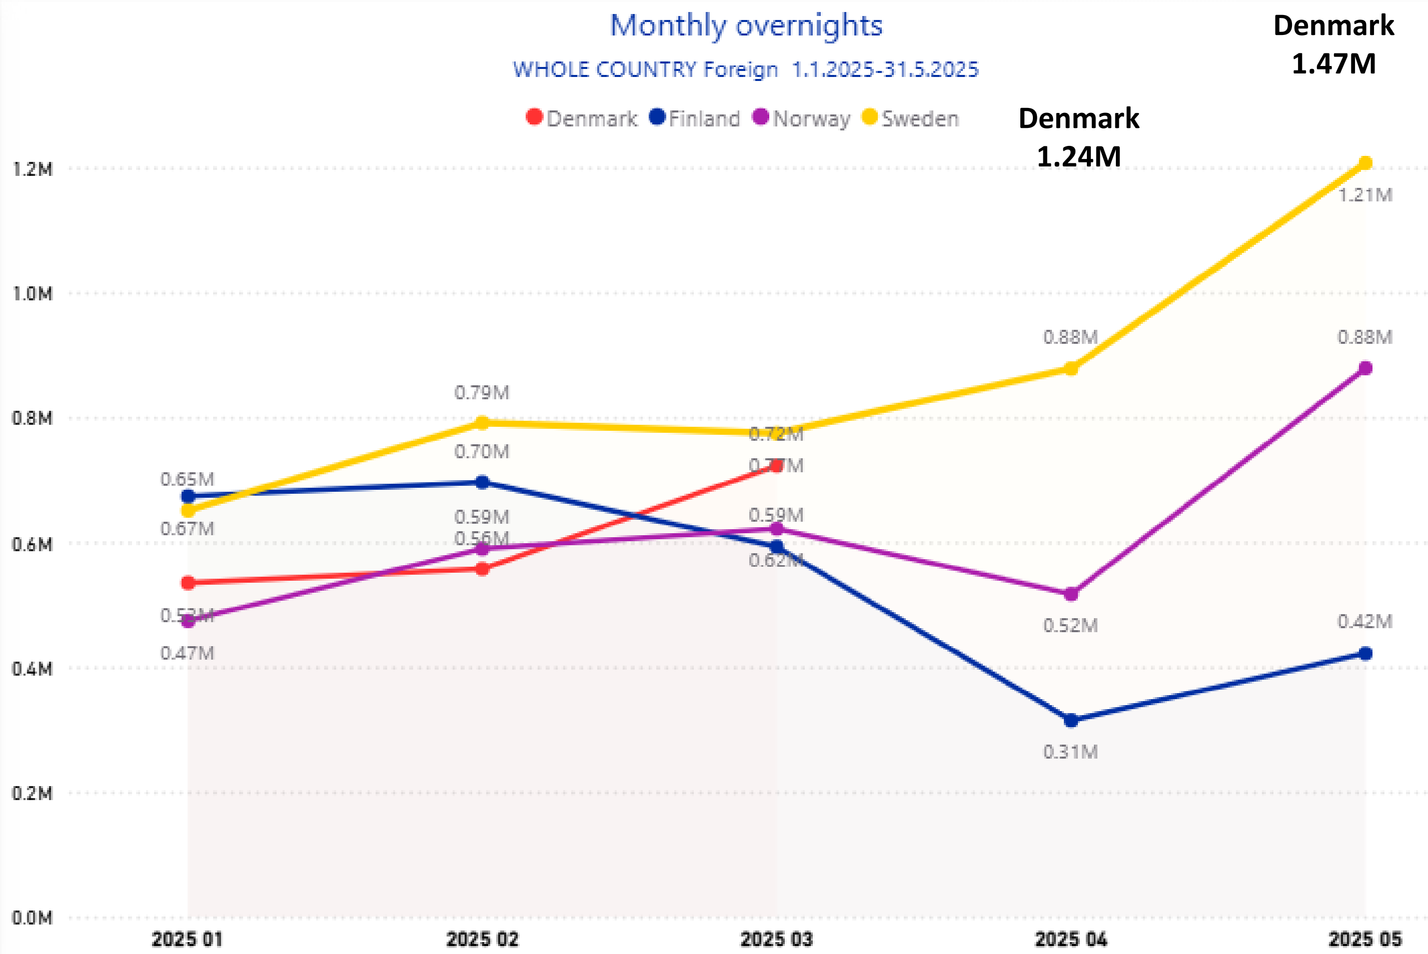
[Nordic report](#)



The Nordic region has experienced good growth in registered foreign overnight stays from January to May 2025.

In May, the count of foreign overnight stays in in the four Nordic countries **increased by 5%** when compared to the same month in the previous year.





Please note that latest statistics for Iceland are currently not available as they are undergoing revisions.

Flight bookings for Jun-Aug 2025

- Airline bookings to Finland for the **summer months** of June – August are **increasing by 6%** compared **to last year**. *When comparing to summer 2019, the total int'l bookings are 14% below that level. However, among the main source markets **USA**, **France**, **Spain**, and **Poland** show **positive development** compared to 2019.*

- Bookings for the summer months to **Norway** are growing when comparing to both previous summer as well as to summer 2019. Bookings to **Sweden** are slightly increasing compared to previous summer, but decreasing compared to summer pre-pandemic.

Seat capacity on int’l flights

June – August 2025

- **Total int’l seat capacity** for the **summer months** of June – August has slightly decreased compared to the previously planned as the strikes have contributed to several flight cancellations in June. So, at this point total int’l seat capacity to Finland for the summer is 3**% above 2024 level**, *but 16% below the pre-pandemic level*.

  - ➢ As the flight cancellations have affected mainly the European flights, seat capacity from **Europe** in June remained at the same level as in June 2024. However, for the summer season seat capacity should improve by 1% compared to the previous summer season.
  - ➢ Seat capacity from **Asia** is improving by 10% compared to previous summer *but remains 38% below the level of summer 2019*.
  - ➢ Seat capacity from **USA** is clearly above both summer 2024 and summer 2019 levels.
